2026 TIDE TABLES

Average differences giving approximate adjustments for the following.

Wells Bar	- 20 min
Burnham (Overy Staithe)	+ 12 min
Blakeney Bar	- 20 min
Hunstanton	- 25 min

Adjustments intended for high tides only. Low tide time differences may vary within estuaries. The values listed are an average of the actual time differences.

Hull (Albert Dock) Height difference
+ 3.8m Springs + 2.1m neaps

High Water Time

The time of high water has been calculated for the quay wall at Wells. **No adjustments are needed for British Summer Time.**

High Water Depth

The height shown is the predicted metre rise between low and high water on the quay wall at Wells.

● new moon ☽ first quarter ○ full moon ☾ last quarter
